

5/3/19

Innovations and Outcomes Subcommittee meeting

- tip sheet for innovations
- study table send to Omar or Kathy Faber to showcase studies to find contact person

**Kathy Burke Northern Consortium for NNEBP for resilience study**-studying from students to their journey to nurses

- proposal for nurse resilience study-why are we not keeping our new millennial nurses
- looking at juniors and seniors are they resilient, students have gone through IRB and they are studying
- initially develop reliance tool kit, now performing data collection to identify issue and need for tool.
- population studied: junior year to 12 months of nursing experience
- start September 2019

Is resilience a concern?

initial evaluation

- data points junior and senior beginning and end of each semester
- nurses data points on entry, 3 months, 6 months, 9 months, 12 months

sample-students 400

RN-

SPSS-statistician for Ramapo

- our goal is to get involvement of
- protocol will be written by nnjebp and each hospital will need approval from their IRB.
- NNJ will develop the protocol and the consent form for the hospitals to approve

Plan-please organizations to review proposal

Innovations and Outcomes Subcommittee tip sheet

- we are looking to add innovations on the website in addition to our EBP and Research grid
- escape room

NJ institute for Innovation March-no cost from NJIT

Pivot nurse-assesses patients in the ED waiting room and sees what is needed for the patients level of care.

- workarounds may not be the negative thing. Nurses are finding ways to smarter and may not be the same workflow it may be more efficient

- by May 24th deadline feedback on tip sheet and research proposal KIM to send
